Good morning, Alexis:

Sending this note as a follow to our recent conversation and my chat with John last Friday regarding potential support for the 97-005 refresh effort.

Understand that Mike Montgomery and Corrine Li will be involved in the evaluation process.

Darrin is ready to reach out to Mike to discuss the opportunity and then follow up as may be suggested pursuant to the existing relationship between EPA and DDW.

Ken Manning has indicated that the San Gabriel Basin Water Quality Authority is available to serve as a local agency for receiving the funds and combining them with other funding in support of the effort.

Will appreciate it if you can give Mike a heads up in anticipation of Darrin's call.

Have attached another copy of the project overview, the preliminary guidance document that is the subject of our effort and a list of current 97-005 regional projects prepared by DDW.

I will also forward a copy of the notice for our next project meeting under separate cover.

In the meantime if you have any questions or need additional information, please let me know.

Thanks again,

Chris
